I. Introduction

The Central Yavapai Metropolitan Planning Organization (CYMPO), as a condition to receiving Federal financing assistance from the Federal Transit Administration (FTA), Federal Highways Administration (FHWA), and Arizona Department of Transportation (ADOT) agrees to comply with the Title VI of the Civil Rights Act of 1964 and the 1994 Presidential directive of 1994, Executive Order 12898.

II. Policy Statement

The Central Yavapai Metropolitan Planning Organization (CYMPO), is committed to ensuring that no person is discriminated against on the grounds of race, color, national origin, or limited English proficiency as provided by Title VI of the Civil Rights Act of 1964, The Civil Rights Restoration Act of 1987, Section 504 of the Rehabilitation Act of 1973, Americans with Disabilities Act of 1990 (ADA), Executive Order 12898 (Environmental Justice), Executive Order 13166 (Limited Proficiency), Code of Federal Regulations 49 Part 21, Code of Federal Regulations 23 part 200, and Code of Federal Regulations Part 303.

The Central Yavapai Metropolitan Planning Organization (CYMPO) strives to ensure nondiscrimination in all of its programs and activities, whether those programs and activities are federally funded or not. As a sub-recipient of federal funding, the Central Yavapai MPO is responsible for initiating and monitoring Title VI activities, preparing required reports, technical assistance and training. The Central Yavapai MPO's contractors/consultants must also comply with this policy.

III. Environmental Justice Activity

In 1994, Executive Order (EO) 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, was issued. EO 12898 emphasizes the responsibility to make environmental justice a goal by identifying and addressing the effects of programs, policies and activities on minority and low-income populations. The Central Yavapai MPO accomplishes this by considering these populations in its transportation planning process to ensure equitable and safe projects within its community.

Title VI of the Civil Rights Act of 1964 requires outreach to underserved groups.

"No person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal Financial assistance."

A further 1994 Presidential directive dictates, **"Each Federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations."** *Executive Order 12898*

CYMPO will consider environmental justice through planning activity according to Federal legislation noted above. Furthermore, in order to involve and assist the underrepresented and underserved, the MPO will adhere to the Moving Ahead for Progress in the 21st Century Act or MAP-21, within the transportation planning process. The MPO will make every effort to hold public meetings in facilities that are Americans with Disabilities Act (ADA) compliant; and, arrange for reasonable accessibility and accommodation to persons with disabilities. Further, to provide equally effective communication, CYMPO will make due preparation, when appropriate, for persons requiring assistance, such as the hearing or visually impaired, upon request.

CYMPO will assist persons with limited English proficiency to participate in the transportation planning process. Staff will make every effort to provide Spanish interpreters and document translation, where feasible, upon request. Elderly persons or non-vehicle households who are unable to attend meetings may request information from the CYMPO office and have the requested materials delivered to their residence. CYMPO staff, coordinating availability, is willing to go speak to groups in an effort to eliminate participation barriers and involve citizens in the transportation process.

IV. Public Participation Process

The Central Yavapai Metropolitan Planning Organization recognizes the increasing importance of involving the public as they plan, organize and implement transportation projects. Engaging interested parties generally results in a more effective project overall. Taking time at the beginning to communicate with potentially affected interests, carefully explaining the proposal, and gathering input, can enhance the project and theoretically reduce the time and effort for implementation.

The goals of this public involvement are to ensure that:

- Residents are given the opportunity to participate in the transportation planning process.
- The issues and concerns of residents are given consideration in the selection of transportation investments.
- Transportation investments do not disproportionately burden any population with adverse impacts.

The Central Yavapai Metropolitan Planning Organization operates under a comprehensive Public Involvement Plan (PIP). The Plan explains the agency goals for public participation, governing structure, and composition of boards, procedures for board meetings, program areas, interagency coordination, and specific procedures for public participation in the planning process, public engagement and notification methods. The full plan is available at www.cympo.org

The CYMPO has developed a Limited English Proficiency Plan (LEP) which is incorporated as Appendix F in this document.

IV-a Commitment to Public Involvement

The Public Involvement Plan (PIP) contains background material, guidelines, and commitments that CYMPO is undertaking to incorporate an effective public process into future plans, projects, and programs. Specifically CYMPO is committed to:

- Inclusive and meaningful public involvement
- Open and honest communications with all individuals and entities
- Timely public notice
- Full public access to information and key decisions
- Shared responsibility and ownership for regional transportation/congestion problems and a shared sense of pride in the development of solutions to those problems
- Formation of partnerships between member entities, and the private and public sectors to plan and implement transportation/congestion solutions
- Establish policies and prioritize needs based on valid data and using objective, fair and consistent processes
- Provide information and gather input so that decision makers will be able to make informed decisions.

IV-b Public Meetings

CYMPO's Executive Board meets the 3rd Wednesday of every month. Their Technical Advisory Committee meets the 1st Thursday of the month. The upcoming Annual Meeting Schedule is published in the local newspaper (Prescott Daily Courier) in December of each year. VI. CYMPO Organizational & Program Administration

a. General Organization

CYMPO was established in 2003 with responsibility for transportation planning within the regional area generally encompassing the City of Prescott, the towns of Prescott Valley, Chino Valley and Dewey-Humboldt, Central Yavapai County and the state highway system within its boundaries. Federal regulations require that an MPO be designated to carry out a comprehensive, continuing, and coordinated transportation planning process for urbanized areas with a population of 50,000 or more. Yavapai County is the fiscal and administrative agent for CYMPO. The region covered by CYMPO is over 400 square miles and is shown on the preceding map.

b. CYMPO Title VI Coordination and Administration

Compliance is ongoing and falls under duties for the Title VI Coordinator, Allison McCarthy and MPO Administrator, Christopher Bridges which includes, but is not limited to activity such as reporting, data collection, training and conduction program area and sub-recipient reviews. Title VI training will be provided to CYMPO staff throughout each year through coordination with ADOT, and Title VI training will be included as an item on CYMPO's Board and Committee agendas once per year.

Additionally, as the Title VI Coordinator, Ms. McCarthy is also responsible for developing the Title VI Plan and related reports and overseeing the implementation of the Plan. The CYMPO Executive Board will approve the completed Title VI Plan annually (see attachment D for Executive Board approved meeting minutes).

Ms. McCarthy may be contacted via telephone at 928-442-5730, e-mail at Allison.mccarthy@yavapai.us or in person at 1971 Commerce Center Circle, Suite E, Prescott, Arizona (an appointment is suggested).

Strategies to include disadvantaged populations (including individuals with Limited English Proficiency) in the transportation planning and grant awards processes are outlined in the CYMPO Public Involvement Plan which is included as Appendix "G" of this document.

Central Yavapai Metropolitan Planning Organization Organizational Chart

c. CYMPO Executive Board

The member agencies of the Central Yavapai Metropolitan Planning Organization are represented on the Executive Board by elected officials. It is the function of the Executive Board to act as a policy body coordinating transportation planning and related implementation activities within the metropolitan area. The Board must approve all agreements and contracts and the Chairman must sign all appropriate documents related to contracts and agreements. The Executive Board consists of elected or appointed officials from the City of Prescott, the Towns of Prescott Valley, Chino Valley and Dewey-Humboldt, Yavapai County and one member from ADOT State Transportation Board (appointed by the Governor of the State of Arizona).

d. CYMPO Technical Advisory Committee

The Technical Advisory Committee (TAC) is an advisory committee to the Executive Board. The eight-member committee is comprised of appointed Public Works Directors (or other support staff) from the five member agencies, as well as appointed representatives from the Arizona Department of Transportation's Northwest District Engineering Office and Transportation Multi-modal Planning Division, and the U.S.D.A. Forest Service. The committee has the authority and primary responsibility to conduct technical reviews and analysis regarding all work activities of the Work Program and to advise the Executive Board on appropriate actions to be taken.

e. CYMPO Ecosystem Connectivity and Mitigation Advisory Committee

The mission of the Ecosystem Connectivity and Mitigation Advisory Committee (EMAC) is to study and advocate for the preservation of interconnected ecosystems in the CYMPO Region that will integrate land use and mitigation for natural resource protection, and wildlife habitats into the regional transportation planning and design program. The EMAC reports to the TAC on a monthly basis and provides regular reports quarterly, biannually or as needed to the Executive Board.

The EMAC is composed of seven voting members; four of which are appointed members from ADOT NW District Environmental, AZ Game & Fish, Yavapai County Land Use Planning Staff, Prescott National Forest, and three are private citizens who reside within the CYMPO planning boundary. CYMPO encourages minorities to apply for the private citizens positions when they are available. During the establishment of the EMAC, CYMPO directly reached out to the Yavapai Prescott Indian Tribe to invite the Tribe to submit a nomination form for one of the vacant positions.

Sources: U.S. Census Bureau, 2010-2014 American Community Survey (ACS) 5-Year estimates and 2010 Decennial Census

ACS data are based on a sample and are subject to sampling variability

^a Minority includes total population less White (Non Hispanic). Data for minority and population groups by age are from 2010 Census data.

^b Percent of the population for whom poverty status is determined does not include institutionalized persons or persons under 5 years of age. Total population in the Census defined MPO area for whom poverty status is determined is 89,355. Data from 2014 ACS 5-Year estimates (Table B17001)

^c Disability status from the 2014 ACS 5-year estimates. All percentages are based on Census Tracts that match as close as possible to the MPO area, see note 'g'. Disability status is determined for the civilian noninstitutionalized population based on six types of difficulty: hearing, vision, cognitive, ambulatory, self-care, and independent living difficulty. (Table B18101)

^d For Limited English Proficient (LEP) persons, the Federal guidance (Federal Transit Administration Circular 4702.1B) notes that DOT has adopted the DOJ's Safe Harbor Provision. This Provision stipulates that the targeted minimum number of recipients regarding the translation of written materials for LEP populations is five percent or 1,000 persons, whichever is less, of the total population of persons eligible to be served. Thus for determining the number of affected Census Tracts and affected population, 5% is used as the guideline rather than the MPO percentage.

^e Affected population is the total of people that fall into the specified category for all Census tracts that have greater than or equal to the percentage for the MPO area (as defined by the Census geography, see note *h*) or as designated for LEP populations (see note *e*).

^f The guidance for Limited English Proficiency (LEP) for DOT recipients refers to persons age 5 years and over who speak english less than "very well." See http://www.lep.gov/guidance/guidance_Fed_Guidance.html Data from 2014 ACS 5-Year estimates (Table B16005). 2014 estimate of total persons age 5 years and over for the defined Census geography is 86,678.

^g The Census Tracts used in this analysis include the best match using full Census Tracts where the majority of the population or the tract centroid is within the MPO boundary. The base numbers for all values in this table are for this Census-based defined area.

Demographic Data obtained from the above referenced sources is analyzed and used to ensure minority, disabled and low income populations are considered and encouraged to participate in the transportation planning process.

See Attachment E for demographic maps which show the impacts of the distribution of the State and Federal funds for public transportation in the CYMPO boundary.

VIII. Data Collection/Reporting/Analysis

CYMPO collects and analyzes Title VI data (race, sex) on an ongoing basis. It collects and records the data submitted via the Self-Identification Surveys that are provided at its public meetings. It utilizes the ADOT UTRACS program to establish Disadvantaged Business Enterprise (DBE) involvement goals when advertising for planning projects and includes this information in its contracts.

IX. Limited English Proficiency (LEP)

Limited English Proficiency (LEP) is a term used to describe individuals who are not proficient in the English language. Arizona's diverse population makes it critically important the Central Yavapai MPO be innovative and proactive in engaging individuals from different cultures, backgrounds and businesses in planning, project development and other program areas.

As a recipient of federal funding, CYMPO has taken reasonable steps to ensure that all member of the community, regardless of their proficiency to understand English, have the opportunity for meaningful access to CYMPO's planning process. The U.S. Department of Transportation has provided guidance to conduct a four factor analysis to determine what language assistance is appropriate.

CYMPO has analyzed the four factors identified below:

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by the program or grantee. There are 88,259 people in the CYMPO Planning Region. The limited English proficiency population is 3.1% or 2,681 of the total population with Spanish being the predominate language. This data was obtained from the US Census Bureau and is outlined the table below.
2. The frequency with which LEP individuals come in contact with the program. Transportation planning and air and water quality touch the lives of all persons in the CYMPO member area. CYMPO believes every effort should be made to provide those who speak English "less than well" the opportunity to participate in the planning process. Public Meeting notices provide information on obtaining interpreter services.
3. The importance of the service provided by the program to people's lives. CYMPO activities related to identifying and planning future funding for future projects which will then be implemented by its member agencies. These activities are vital and affect all persons living in communities under the jurisdiction of CYMPO.
4. The resources available and the overall cost to the MPO. CYMPO has limited staff and financial resources and has determined that the translation of large plan documents and maps are warranted at this time. However, CYMPO does provide translation services upon request with advance notice.

Laws and Policy

Executive Order (EO) 13166 - *Improving Access to Services for Persons with Limited English Proficiency* is directed at implementing the protections afforded by Title VI of the Civil Rights Act of 1964 and related regulations. Accordingly, it prohibits recipients of Federal financial assistance from discriminating based on national origin by failing to provide meaningful access to services to individuals who are LEP. This protection requires that LEP persons be provided an equal opportunity to benefit from or have access to services that are normally provided in English.

The following matrix illustrates legal and policy considerations:

<u>Title VI of the Civil Rights Act of 1964</u>	<u>Limited English Proficiency Executive Order 13166</u>

Program Responsibility

Executive Order (EO) 13166 directs recipients of Federal financial assistance to take reasonable steps to provide limited English proficient individuals with meaningful access to their programs, activities and services.

- *Notify LEP customers of the availability of language assistance services*
LEP persons have the right to language assistance at no cost to them in their spoken language. Language identification cards or posting signs in public areas are methods that can be used to provide notice of the service.
- *Translation of vital documents in languages other than English*
It is appropriate to have written materials that have been historically provided in English to applicants, customers and the general public translated into languages that are regularly encountered. The translation of vital documents into languages other than English is particularly important where a significant number or percentage of the customers served and/or eligible to be served have limited English proficiency. Written materials include electronic documents and web-sites. CYMPO will indicate on its web site and newspaper

publications that translation can be provided, with 10-days' notice prior to when the services are needed.

Vital Documents are documents that convey information that critically affects the ability of the recipient/customer to make decisions about his/or her participation in the program or activity. Examples of vital documents include, but are not limited to: applications, public notices, consent forms, letters containing important information regarding participation in a program, eligibility rules, notices pertaining to the reduction, denial or termination of services or benefits, right to appeal, notices advising of the availability of language assistance and outreach and community education materials. It is recommended that divisions/programs develop criteria for deciding which documents are vital thereby subject to translation.

Translating documents for LEP to a fourth (4th) grade literacy level ensures the targeted audience understands the information. Community based organizations or focus groups can assist with testing translations for language and literacy level appropriateness.

The Department of Transportation Policy Guidelines give recipients of federal funds substantial flexibility in determining what language assistance is appropriate based upon a local assessment. Due to current financial constraints, translation of large plan documents and maps are considered not warranted at this time. The CYMPO will provide translation services, if requested, with 10-days' notice prior to when the services are needed.

^a Limited English Proficient (LEP) refers to person or persons age 5 years and over for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English. It includes people who reported to the Census that they speak English less than very well, not well, or not at all.

Transportation

- Regional Transportation Plan (RTP)
- Transportation Improvement Program (TIP)
- Public Involvement Plan (PIP)
- Coordinated Public Transit-Human Services Transportation Plan, also known as the Regional Mobility Management Implementation Plan (RMMIP)
- Unified Planning Work Program

All persons living, working, conducting business and visiting the region are beneficiaries of the planning, coordination, and construction activities of the MPO. CYMPO does not construct projects; albeit, this activity is accorded to member agencies. The safe movement of goods and people is supported by providing and maintaining a transportation network and facilities.

The Title VI Coordinator will provide review of the transportation-related program areas to help ensure Title VI compliance in their programs and activities. Additionally, the Title VI Coordinator reviews transportation-related contracts and other agreements to ensure the most current language and assurances are included. A log is maintained to record internal reviews on an ongoing basis.

Introduction

The Central Yavapai Metropolitan Planning Organization (CYMPO) is responsible for transportation planning within the regional area of over 400 square miles. Encompassing this area are the City of Prescott, the towns of Prescott Valley, Chino Valley and Dewey-Humboldt, as well as unincorporated portions of Yavapai County within CYMPO's boundary.

CYMPO's LEP/Language Access Plan complies with Title VI of the Civil Rights Act of 1964 and Executive Order 13166 which prohibit recipients of Federal financial assistance from discrimination based on national origin.

What is Limited English Proficiency?

Limited English Proficiency (LEP) is a term used to describe individuals who are not proficient in the English language. Limited English Proficient (LEP) individuals are those whose primary language spoken at home is other than English and have a limited ability to read, write, speak or understand English.

Arizona's diverse population makes it critically important that CYMPO be innovative and proactive in engaging individuals from different cultures, backgrounds and businesses in planning, project development and other program areas.

Laws and Policy

Executive Order (EO) 13166 - *Improving Access to Services for Persons with Limited English Proficiency* implements the protections afforded by Title VI of the Civil Rights Act of 1964 and related regulations. Accordingly, it prohibits recipients of Federal financial assistance from discriminating based on national origin by failing to provide meaningful access to services to individuals who are LEP. This protection provides LEP persons an equal opportunity to benefit from or have access to services normally provided in English.

Authorities

The following matrix illustrates legal and policy considerations that require CYMPO to provide LEP persons with meaningful access to programs, activities, and services.

Title VI of the Civil Rights Act of 1964	Limited English Proficiency Executive Order 13166

Provides protection on the basis of age, sex, and disability	Provides protection on the basis of age, sex, and disability

Program Responsibility

EO 13166 directs recipients of Federal financial assistance to take reasonable steps to provide LEP individuals with meaningful access to their programs, activities and services.

1. Notify LEP customers of the availability of language assistance services
LEP persons have the right to language assistance at no cost to them in their spoken language. Language self-identification forms or posting meeting notifications in public areas are methods used to provide notice of the service.

2. Translation of vital documents in languages other than English
It is appropriate to have written materials translated into languages regularly encountered. The translation of vital documents into languages other than English is particularly important where a significant number or percentage of the customers served and/or eligible for service have limited English proficiency. Written materials include electronic documents and web sites. CYMPO provides notification on its web site and newspaper publications of translation availability.

Vital documents convey information that critically affects the ability of the recipient/customer to make decisions about his/or her participation in the program or activity. Examples of vital documents include, but are not limited to: applications, public notices, consent forms, letters containing important information regarding participation in a program, eligibility rules, notices pertaining to the reduction, denial or termination of services or benefits, right to appeal, notices

advising of the availability of language assistance and outreach and community education materials.

Translating documents for LEP to a fourth (4th) grade literacy level ensures the targeted audience understands the information. Community based organizations or focus groups can assist with testing translations for language and literacy level appropriateness.

The Department of Transportation Policy Guidelines give recipients of federal funds substantial flexibility in determining what language assistance is appropriate based upon a local assessment. Current financial constraints prohibit the translation of large plans, documents and maps at this time. CYMPO will provide translation services, if requested within reasonable notice of when the services are needed.

No requests for translation services have occurred since CYMPO's inception in 2003.

CONCLUSION

CYMPO understands that language needs will change as the Yavapai County population changes. Further, CYMPO will comply with the requirement to assess its programs and services each year to determine compliance with various nondiscrimination regulations. For questions or concerns regarding CYMPO's commitment to nondiscrimination, or to request additional information about LEP services, contact Christopher Bridges, CYMPO Administrator, at Christopher.Bridges@yavapai.us or 928-442-5730.

I. INTRODUCTION

Central Yavapai Metropolitan Planning Organization (CYMPO) is the Federal and State designated Regional Transportation Planning Organization for the urbanizing portions of central Yavapai County. It was created in 2003 in response to a Federal mandate that requires an urbanized area with a Census-designated population of 50,000 or more residents to form such an organization in order to be eligible for Federal transportation funds. The urbanized area meeting this population level includes parts of the City of Prescott, the Town of Prescott Valley, and unincorporated Yavapai County.

CYMPO is comprised of six member governments (Yavapai County, City of Prescott, Town of Prescott Valley, Town of Chino Valley, Town of Dewey-Humboldt, and the State of Arizona Transportation Board). The planning boundary (see Figure 1.) covers 400 square miles and includes approximately 140,000 central Yavapai County residents.

CYMPO's objective is to provide the long-range transportation planning needed for enhancing the region's transportation system. CYMPO engages in cooperative decision-making through working relationships and financial partnerships among the member governments, the Arizona Department of Transportation, the Federal Highway Administration, and the Federal Transit Administration.

Figure 1.

II. PURPOSE

Governmental agencies recognize the importance of involving the public as they plan, organize and implement transportation plans and programs. The purpose of a public participation plan is to ensure a proactive public involvement procedure that allows the public to be involved in all phases of the planning process by providing complete information, timely public notice, opportunities for making comments, full access to key decisions, and early and continuing involvement in developing transportation plans and programs.

Within these programs, the following components are defined for establishing the proper participation protocols:

Metropolitan Transportation Improvement Program (MTIP): Under federal guidelines, the MTIP is a sequential, ten-year program with the first five years financially constrained. It programs the most immediate implementation priorities for transportation projects as outlined in the Regional Transportation Plan. It is the region's way of allocating its limited transportation resources among the various capital and operating needs of the area.

Regional Transportation Plan (RTP): This Regional Transportation Plan update will be prepared for the 25-year planning horizon validating and/or updating the existing 2040 plan as previously adopted for the metropolitan planning area of the Central Yavapai Metropolitan Planning Organization (CYMPO). This long-range plan developed under Federal Transportation Planning Guidelines provides for the continual development of a complete, dependable, efficient, safe and economical regional transportation system.

Coordinated Public Transit – Human Services Transportation Plan: This plan establishes goals, criteria and strategies for delivering efficient, coordinated services to elderly, underemployed or otherwise financially disadvantaged persons and persons with disabilities.

Unified Planning Work Program (UPWP): The UPWP documents the transportation studies and tasks performed by CYMPO or a member agency along with the corresponding budget in each fiscal year.

The goals of this public involvement are to ensure that:

- Residents are given the opportunity to participate in the transportation planning process
- The issues and concerns of residents are given consideration in the selection of transportation investments
- Transportation investments do not disproportionately burden any population with adverse impacts

III. PUBLIC PARTICIPATION

To participate is to express oneself at the proper time and in the proper forum. Public participation means participation in planning by people (public) outside the Central Yavapai Metropolitan Planning Organization (CYMPO) and its member entities, by planning and engineering professionals, and by those who are not professions planners or government officials. It is a process of taking part in the transportation planning and decision-making that affect the community.

Public participation implies an open process. This means that anyone who is potentially affected, or interested in the process, is welcome to participate. Some of the reasons for encouraging this openness are:

- Project leaders may gain new information.
- Participants, who want a project to be completed, can provide additional resources in the form of assistance, goods, or services.
- Public participation can be a forum for dispute resolution.
- Progress can be made and implementation occur because the project itself will be better designed with public input.
- The community better understands what the project is.
- Input can be a warning mechanism for potential problems.
- Participant comments help the project leaders understand areas where additional people may have concerns or misunderstandings. This can be used to provide better information to others who are not participating.

IV. PUBLIC INVOLVEMENT PROCESS

To have a proactive public involvement process, CYMPO will provide time for public comment at each public meeting. The procedures will inform the public about how, when and where they may participate.

The public involvement plan contains the following elements:

- Involvement Opportunities – Provide the opportunity for the public to be involved in all phases of the planning process.
- Communication – Establish mechanisms for maintaining communications between the public and local officials such as process like legal ads, web site notifications and displays; make efforts to reach out to environmental justice populations.
- Information – Assure that technical information is available and in simplified, understandable form.
- Response to Public Input – A description of the methods used to respond to comments from the public.
- Advisory Committees – The use of committees and the means of providing a cross-section of affected citizens on the advisory committees.

V. PUBLIC NOTIFICATION METHODS

Official notification of meetings, hearings or other significant events will be provided in the following manner:

- Posting of an agenda with explanation of the content, along with the date, time and the place of the meeting occurs 48 hours prior to a meeting on the web site.
- Email notification is provided to public participants who have submitted their contact information to CYMPO staff in advance.
- Publishing of the annual official calendar of meetings appears as a display advertisement in the non-legal section of the newspaper.

The CYMPO will also utilize the following techniques to disseminate information:

- Meetings and events will be placed on the CYMPO web site: www.cympo.org
- Interviews on radio, government cable, and television
- Articles and press releases for the newspaper
- Use of advisory committees for community involvement
- Informal presentations at regional sites, open houses, or other community forums
- Formal presentations to various service clubs, civic and professional groups
- E-mailings to select individuals, groups of interests that have expressed concern or made comments at meetings
- Social media
- The use of any other creative methods to promote Public Participation will be considered, but not limited to any specific type of participation
